I implore you to vote against the BDS sponsored boycott of HP.

I work in Cambridge, lived in Cambridge for many years in the past, shop and dine and get entertainment in Cambridge. I have always loved Cambridge for its inclusiveness. BDS is a highly antisemitic organization masquerading as an anti-Israel movement.
My personal experience with the antisemitism of BDS is through my Jewish daughter at her college . She texted me very early in the morning, feeling threatened and vulnerable and frightened. Highly inflammatory BDS fliers had been taped to her dorm room door and to the doors of multiple other Jewish
students. My daughter and these other Jewish students were singled out because of their Jewish names, and in no way related to their political activity in respect to Israel. As I then researched, I discovered widespread antisemitic activity on college campuses across the country.
I hope that you will research BDS and keep inclusiveness for all people.

Sincerely,

Jennifer Garshman Hertzel
